**2.07 CONSERVATION ENABLING TARIFF (CET)**

The CET is a mechanism designed to ensure that the Company only collects from GS customers the Commission-authorized revenue per customer. The Commission-authorized revenue per customer multiplied by the number of customers equals the Commission-authorized revenue requirement. As the number of the customers fluctuates, the total revenue authorized from the GS class will also fluctuate. The CET applies only to the GS rate schedule.

**DEFERRED ACCOUNT ACCRUAL**

The Company shall record monthly over- or under-recoveries of authorized GS Non-Gas Cost revenue in the CET Deferred Account (Account 191.9). The allowed revenue for a given month is equal to the allowed Non-Gas Cost revenue per customer for that month multiplied by the actual number of customers. The monthly accrual (positive or negative) is determined by calculating the difference between the actual billed GS Non-Gas Cost revenue and the allowed revenue for that month.

The allowed GS Non-Gas Cost Revenue per Customer per Month is as follows:

Jan	=	\$ <del>62.2376</del>	Apr	=	\$ <del>39.5050</del>	Jul	=	\$ <del>21.4320</del>	Oct	=	\$ <del>31.1837</del>
		<u>28</u>			<u>13</u>			<u>01</u>			<u>86</u>
Feb	=	\$ <del>58.1867</del>	May	=	\$ <del>30.8136</del>	Aug	=	\$ <del>17.9419</del>	Nov	=	\$ <del>42.6956</del>
		<u>84</u>			<u>80</u>			<u>44</u>			<u>85</u>
Mar	=	\$ <del>48.9359</del>	Jun	=	\$ <del>21.9023</del>	Sep	=	\$ <del>22.8322</del>	Dec	=	\$ <del>56.8376</del>
		<u>70</u>			<u>62</u>			<u>23</u>			<u>18</u>

The formula for calculating the accrual each month can be shown as follows:

$$\text{Allowed Revenue (for each month)} = \text{Actual Customers} \times \text{Allowed Revenue per Customer for that month}$$

$$\text{Monthly Accrual} = \text{Allowed Revenue} - \text{Actual Revenue}$$

**AMORTIZATION OF ACCRUAL**

At least annually, the Company will file with the Commission an application to amortize the balance (positive or negative) in Account 191.9. The balance will be amortized by a uniform percentage increase or decrease to the GS Non-Gas Cost block rates of the magnitude necessary to amortize the balance over one year.
