Dominion Questar renamed ‘Dominion Energy’

- *Questar Gas becomes ‘Dominion Energy’*
- *Questar Pipeline, LLC becomes ‘Dominion Energy Questar Pipeline, LLC’*
- *Wexpro becomes ‘Dominion Energy Wexpro’*

SALT LAKE CITY – Dominion Questar has been renamed Dominion Energy after a vote by corporate shareholders. Questar merged with Dominion Resources, Inc., in September 2016.

“Questar Gas has been a familiar name to natural gas customers for two decades,” said Craig Wagstaff, president-Western Gas Operations. “Changing our name to Dominion Energy more closely describes our purpose in the communities where we live and work, providing energy to fuel the lives and livelihoods of our 1 million customers. That said, our commitment to safety and reliability remains unchanged.”

Dominion Energy’s Utah-based natural gas utility will now begin making changes to company bills, building signage, trucks, employee uniforms and other identifying marks in the coming months.

At the same time, Questar Gas’s parent company, Dominion Questar Corporation, has become Dominion Energy Questar Corporation. Other major entities in Dominion Energy Questar Corporation are Dominion Energy Questar Pipeline, LLC, and Dominion Energy Wexpro; collectively, the two companies produce and transport about 60 percent of the natural gas used by Dominion Energy customers in Utah, Wyoming and Idaho. All the companies are part of Dominion Energy, Inc. – formerly Dominion Resources, Inc. – based in Richmond, Va.

Selected name changes, effective immediately, include:

Previously known as	Now known as
Questar Gas	Dominion Energy Utah Dominion Energy Wyoming Dominion Energy Idaho
Wexpro	Dominion Energy Wexpro
Questar Pipeline, LLC	Dominion Energy Questar Pipeline, LLC

Dominion Energy’s new logo, which took effect May 10, retains Dominion’s longstanding “D” shape while modernizing the look with stripes suggesting energy through the blue silhouette.

Dominion Energy does business in 18 states. It is one of the nation’s largest producers and transporters of energy, with a portfolio of approximately 26,200 megawatts of generation, 15,000 miles of natural gas transmission, gathering and storage pipeline, and 6,600 miles of electric transmission lines. The company operates one of the nation’s largest natural gas storage systems with 1 trillion cubic feet of storage capacity and serves more than 6 million utility and retail energy customers.

The company has changed its web address to www.DominionEnergy.com. Visitors to the site should automatically be directed to the proper geographic location; if not, use the “Location” drop-down menu on the screen’s upper-left hand side to locate your state.

Dominion Energy shares of common stock continues to be traded on the NYSE under the ticker symbol “D.”
